CLIENT REVIEWS

Since the retreat, I have noticed a great improvement in overall teamwork, employee morale and engagement. The high energy and motivation coming resulting from the work at the retreat carried over into increased productivity when we returned to the office. Thank you for your leadership and workshop-style retreat agenda that helped me and our owner accomplish the desired messaging and implementation of our new mission and strategy.

—Garret Brafford, CO West Companies Anthony customized our organizations presentation to correspond with the them of our retreat and the needs of our organization. Not only was he engaging and funny, but the information he provided assisted our employees identifying their own and their co-workers communication styles. Staff are still discussing their style and how it relates to others in their division. If you choose Anthony for your event, you will not be sorry!

—Suzanne Kalmbacher, Cecil County Maryland Anthony had them on the edge of their seats! I am newer in corporate leadership and responsible for over 20 highly successful, independent small business owners. At my last district meeting, Anthony came in and not only had them all on the edge of their seats, but they walked away motivated with knowledge and communication skills they can use every day. My team thought is was a great use of time and resources. I will have him back again.
